START HERE

What is Hear Me Out?

You know that one cartoon character you secretly think is cute? The one where you have to say, “Okay… hear me out,” before you explain? That is your **hear me out**.

In this game, everyone picks one in secret. You decorate a cake together. Then you show your picks, one at a time. Each pick goes on the cake, and you explain yourself. Your friends react. Then everyone votes for the best one and the most unhinged one.

What you need

- **2 to 12 players.** The more the better!
- **A phone, tablet or computer** for each player.
- **Internet.** Everyone can play from anywhere.
- **The game link.** Scan the code on the cover.

New word: unhinged

Unhinged means wild and a little bit crazy. In this game, it is a good thing! The most unhinged pick wins an award too.

How a game goes

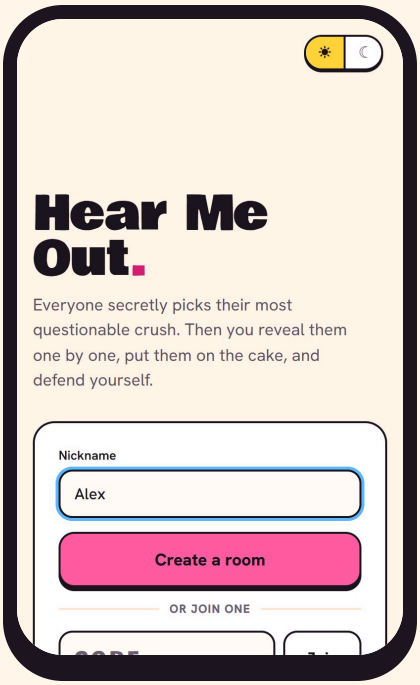

1. **Join a room**
   Everyone joins with a 4-letter code.
2. **Pick a character**
   Choose a cute animal to play as.
3. **Pick a theme**
   Suggest ideas, then vote on one.
4. **Decorate the cake**
   Everyone decorates one cake together.
5. **Pick your hear me out**
   Choose your crush. No peeking!
6. **Get ready**
   Everyone says ready. Then 3… 2… 1…
7. **The big reveal**
   Show your pick and defend it.
8. **Vote**
   Pick the best one and the most unhinged one.

STEP 1

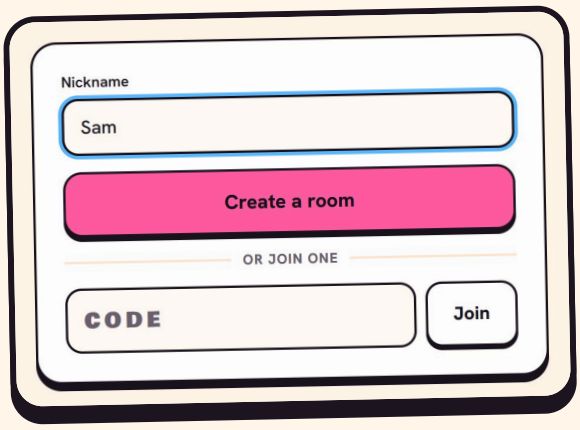

Join a room

Each room has its own 4-letter code. Only people with the code can join.

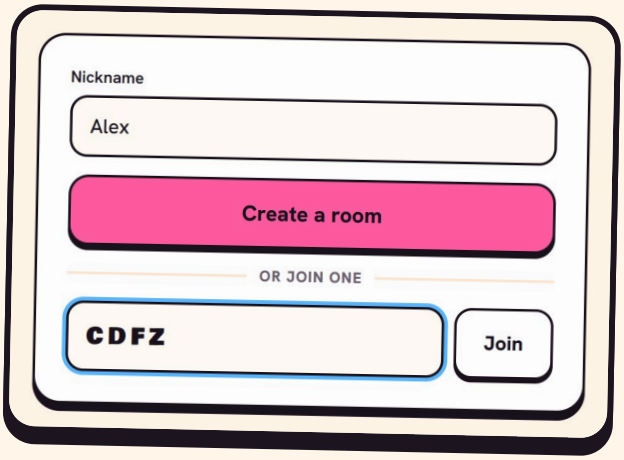

1. Open the game link. You can scan the code on the cover.
2. Type a **nickname**. This is the name your friends will see.
3. One person taps **Create a room**. The game makes a code for you.
4. Everyone else types that code in the **CODE** box and taps **Join**.
5. Or tap **Copy invite link** (on phones: **Share invite link**) and send it. The code fills in by itself.

It works great on phones too.

Sam types a nickname and creates a room.

Alex types the room code and taps Join.

Tip: who is the host?

The first person in the room is the **host** and wears a crown 👑. Your lobby says **You are the host** or **You are a player**. If the host leaves, the next player takes over.

Heads up!

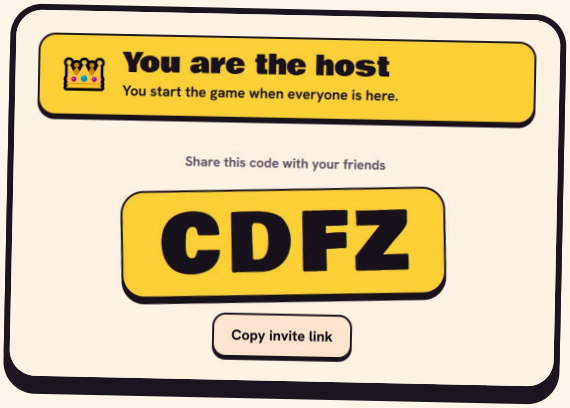

Once a game starts, new players cannot join. They can jump in when you play again.

STEP 2

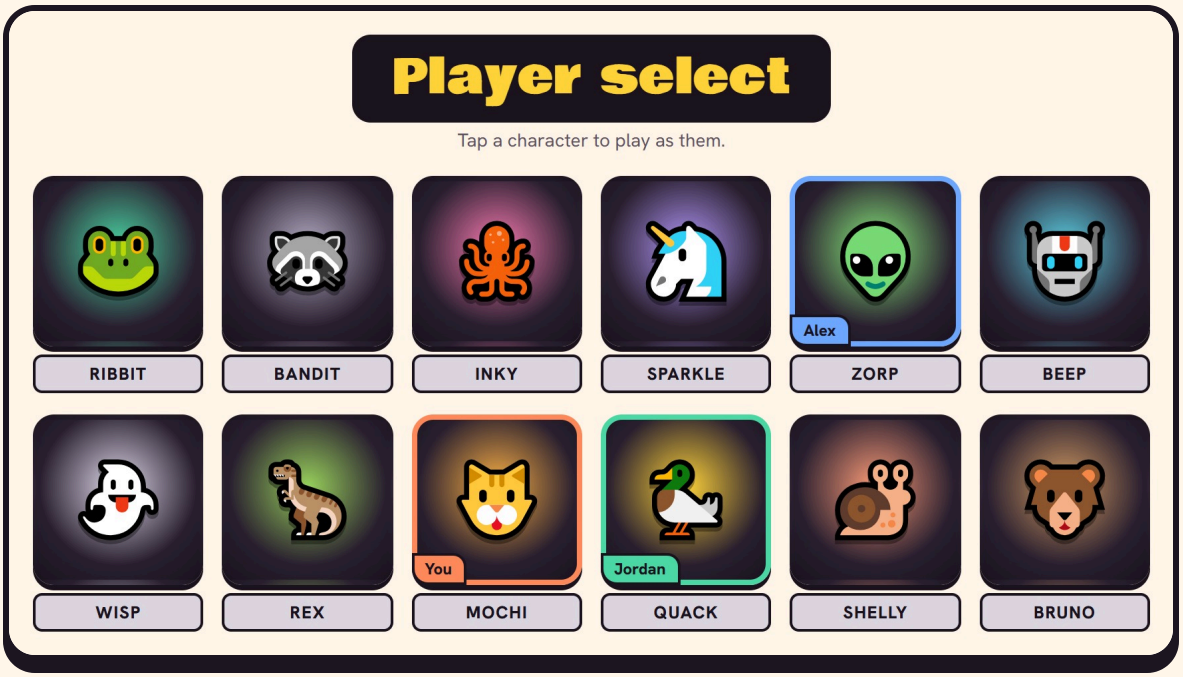

Pick a character

Now you are in the **lobby**. This is the waiting room. Read the room code out loud so your friends can join.

Tap a character to play as them. Each player gets a different one. A name tag shows who picked what.

You are the host! Share this code.

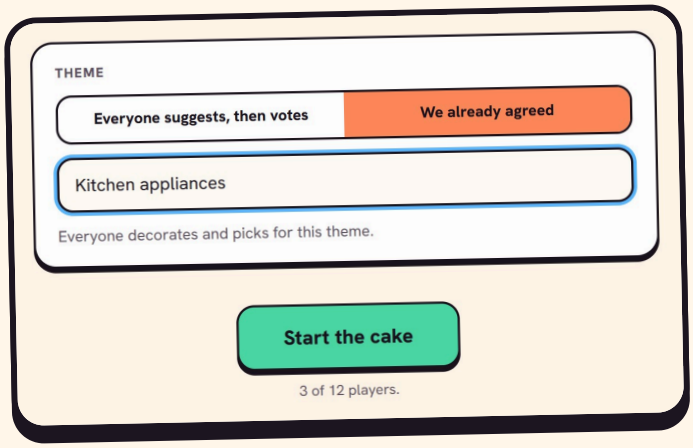

Sam is the cat, Alex is the alien, and Jordan is the duck.

The host picks how to choose a theme

- **Everyone suggests, then votes.** Each player suggests a theme. Then you vote.
- **We already agreed.** The host just types the theme.

When everyone is in, the host taps **Start the cake**. You need at least 2 players.

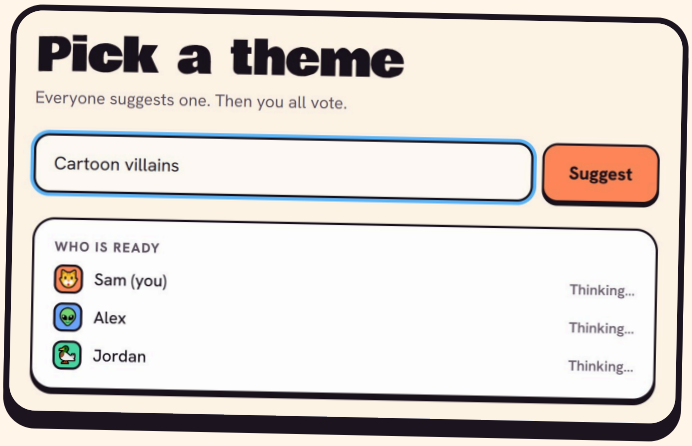

Picked “We already agreed”? Type the theme here.

STEP 3

Pick a theme

The theme is the topic for the night. Everyone picks a crush that fits it.

1. Type a theme idea and tap **Suggest**.
2. When everyone has an idea, it is time to vote. Tap **Vote** on the idea you like best. You cannot vote for your own.
3. The idea with the most votes wins! If there is a tie, the game picks one at random.

"Who is ready" shows who is still thinking.

Your own idea says "Yours." You cannot vote for it.

The winner! Decorating starts 3 seconds later.

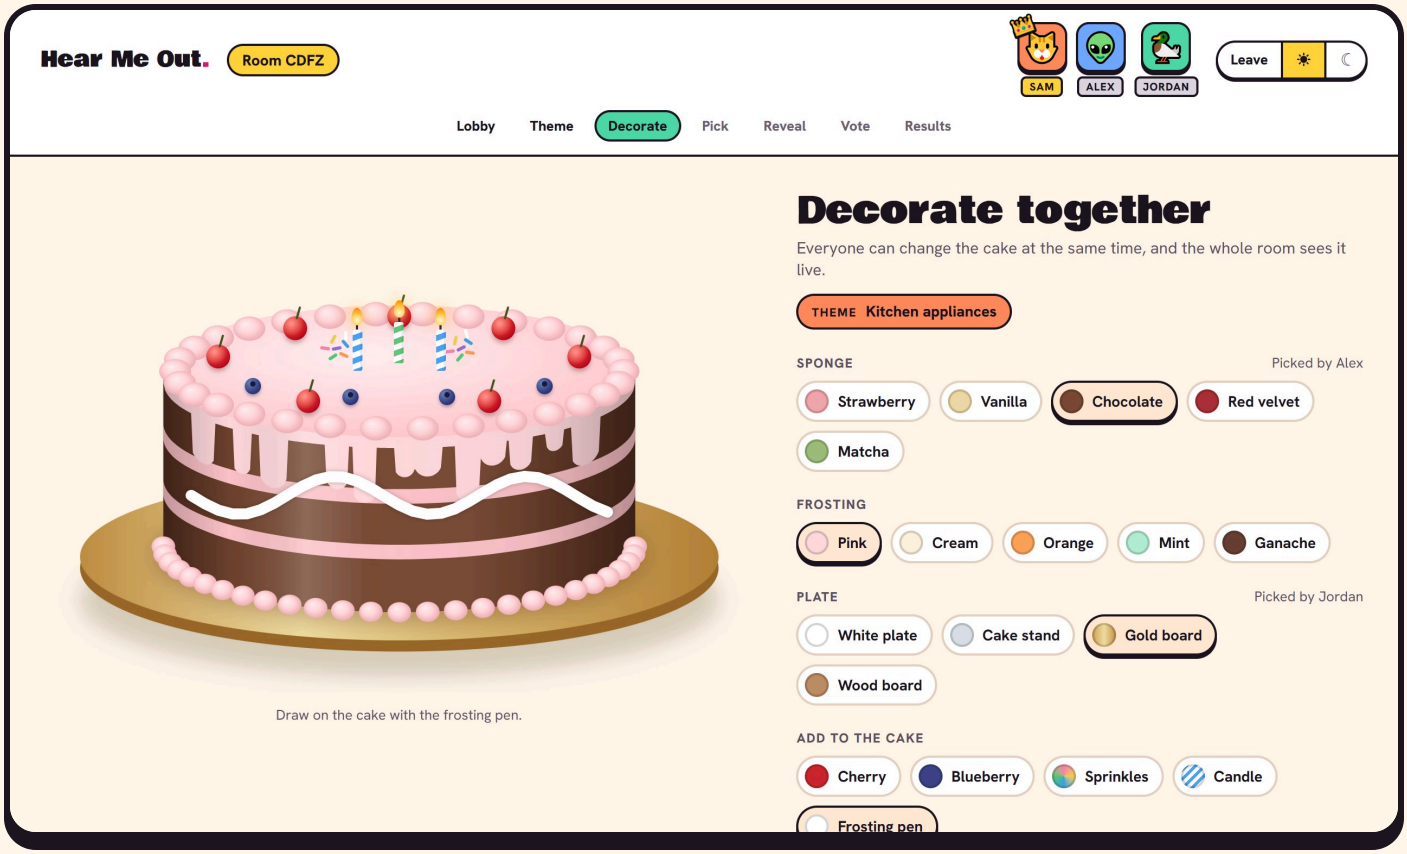

Need ideas?

Cartoon villains · Kitchen appliances · Video game bosses · Movie monsters · Sea creatures · Famous chefs · Haunted dolls

STEP 4

Decorate the cake together

Everyone decorates the same cake at the same time. When a friend adds a cherry, you see it pop up right away!

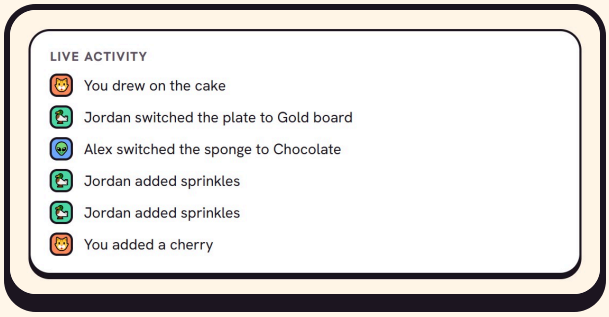

The cake is on the left. Your tools are on the right.

- Pick the **sponge** (the cake), the **frosting**, and the **plate**.
- Pick a topping. Then tap the cake to add it. Candles only go on top.
- Pick the **Frosting pen** to draw on the cake.
- Tap one of your toppings to take it off.
- **Undo mine** takes back your last change.
- **Live activity** shows who did what.

STEP 4, PART 2

Your decorating tools

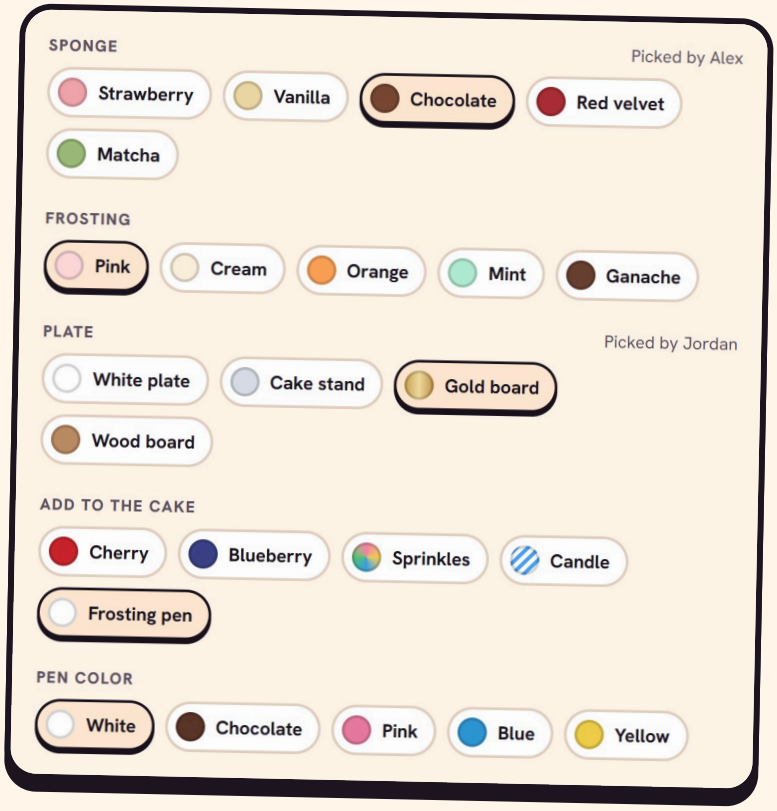

Mix and match! The note on the right says who picked it last.

Live activity: see what everyone is doing.

Tip

You can pick a pen color too. Draw squiggles, hearts or your name!

Sponge, frosting, plate, toppings and pen colors.

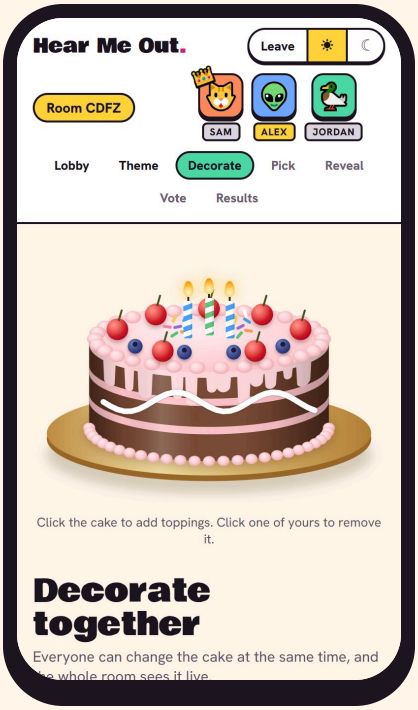

All done?

Tap **I finished decorating**. The game waits for everyone. Then picking starts in 3 seconds.

Want to change something? Tap **Keep decorating**.

Sam is done. Alex and Jordan are still decorating.

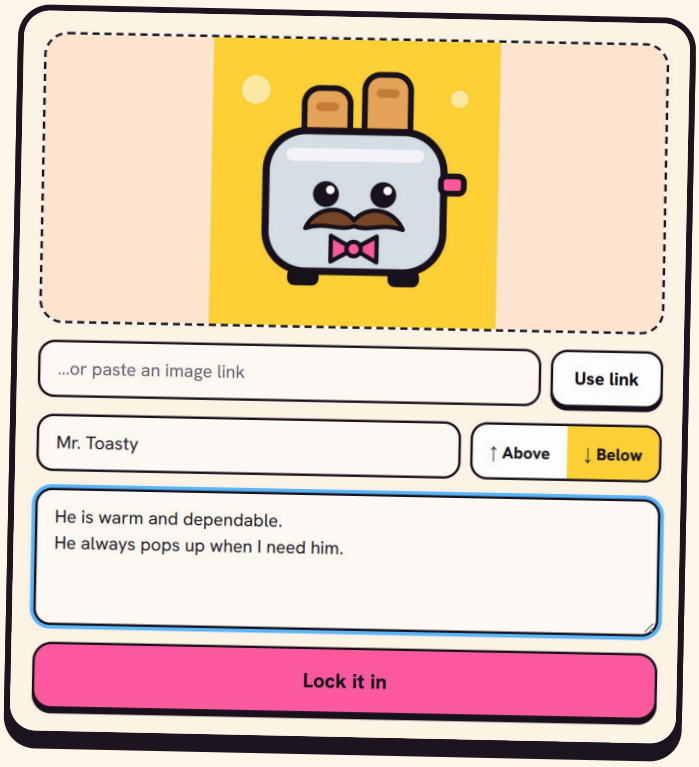

On a phone, the cake is at the top.

STEP 5

Pick your hear me out

This part is top secret. No one can see your pick until the reveal. So no peeking!

1. **Add a picture.** Drop it in the box, tap the box to upload, paste it, or paste a link.
2. **Type who it is.** Choose if the name goes above or below the picture.
3. **Write your defense.** This is why you like them. It is optional. Each line shows up one at a time, so save your best line for last!
4. Tap **Lock it in**.

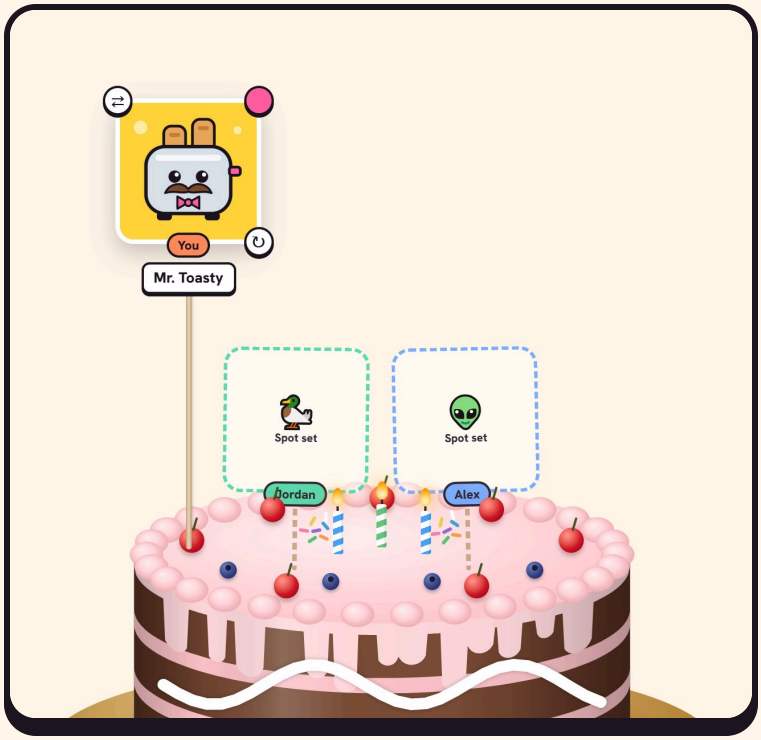

Sam picks Mr. Toasty. Hear him out!

Place it on the cake

Drag your pick to move it. Use the round buttons on its corners:

- ⇄ flips the picture.
- **Pink dot**: drag it to make the picture bigger or smaller.
- ↻: drag it to tilt the picture.

The dashed boxes show where your friends are putting their picks. If yours is too close, it slides to a free spot.

Your friends' spots look like dashed boxes.

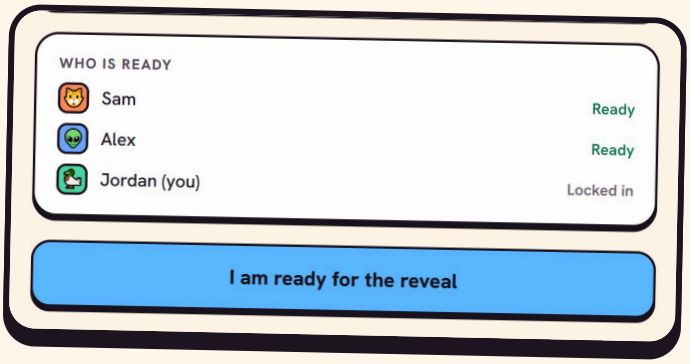

STEP 6

Ready... set... reveal!

After you lock in, tap **I am ready for the reveal**. No one can start the reveal alone. The game waits until **everyone** is ready.

Sam is ready. Now Sam waits for Alex and Jordan.

Jordan is the last one. One tap to go!

What "Who is ready" means

- **Picking...** still choosing a pick
- **Locked in** pick is set
- **Ready** ready for the reveal

When everyone is ready, the curtains close. A clock counts down: **3... 2... 1...**

Drumroll, please!

Changed your mind?

Tap **Not yet** to wait. Tap **Undo lock-in** to change your pick.

STEP 7

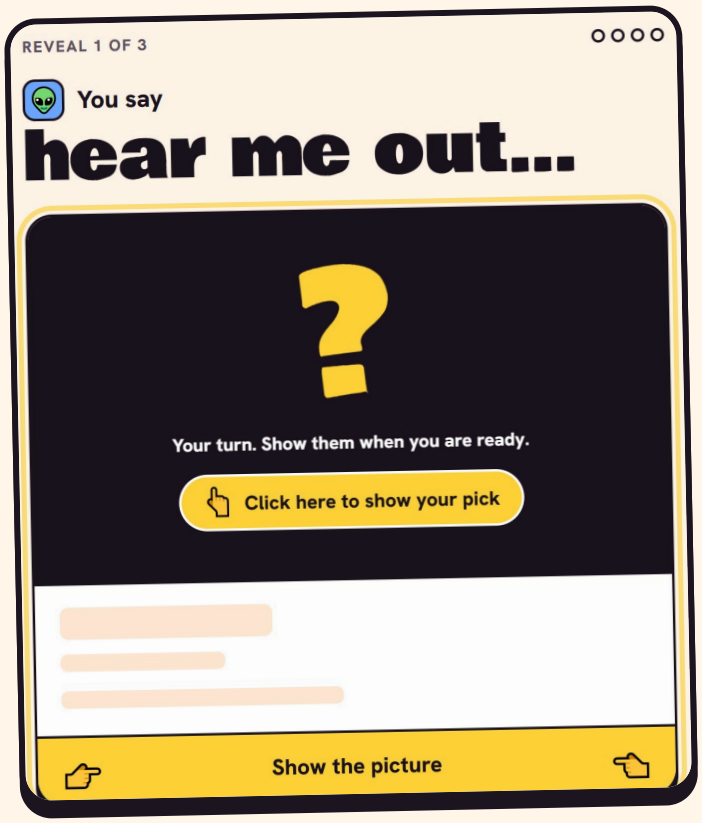

The big reveal

Picks are shown one at a time, in a random order. Each pick lands on the cake as it is shown.

When it is your turn

You are the **presenter**. You decide when to show each part.

1. Tap the card (or press the **Space bar**) to show the picture.
2. Tap again to show the name.
3. Tap again to show each line of your defense.

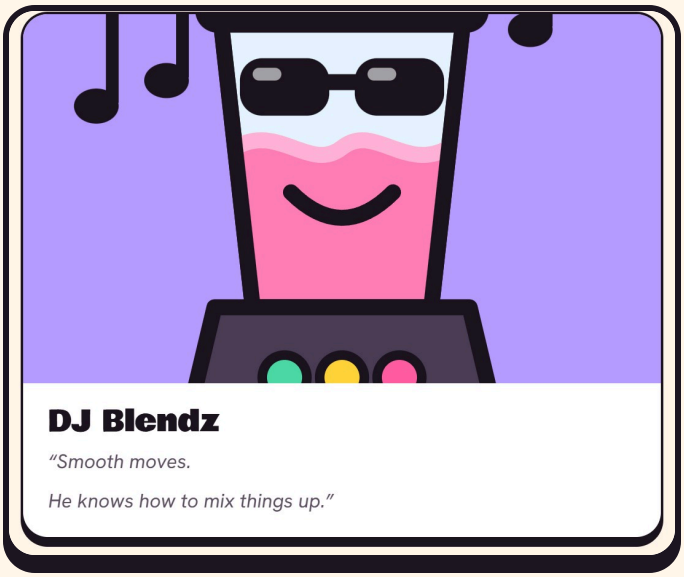

Your turn! Tap the yellow bar to start.

When it is a friend's turn

You see a big question mark until they show their pick. Get ready to react!

The mystery card. Who could it be?

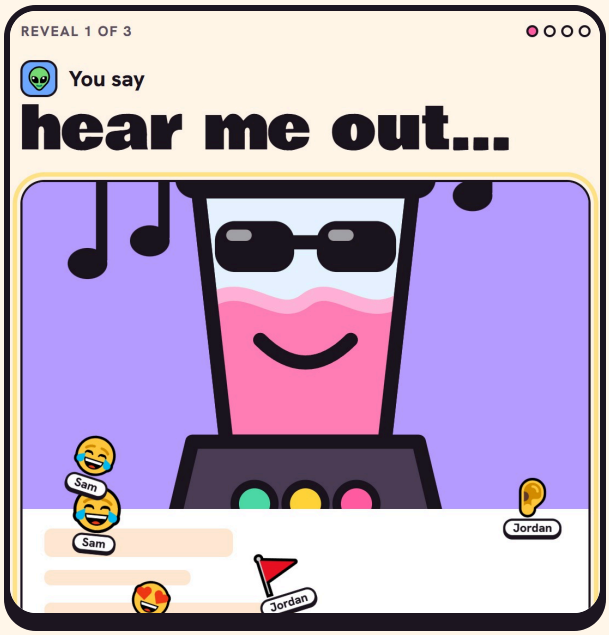

Then the picture, the name and the defense come out.

STEP 7, PART 2

React!

Once the picture is out, everyone can react. Tap as much as you want! Your reactions float up on every screen.

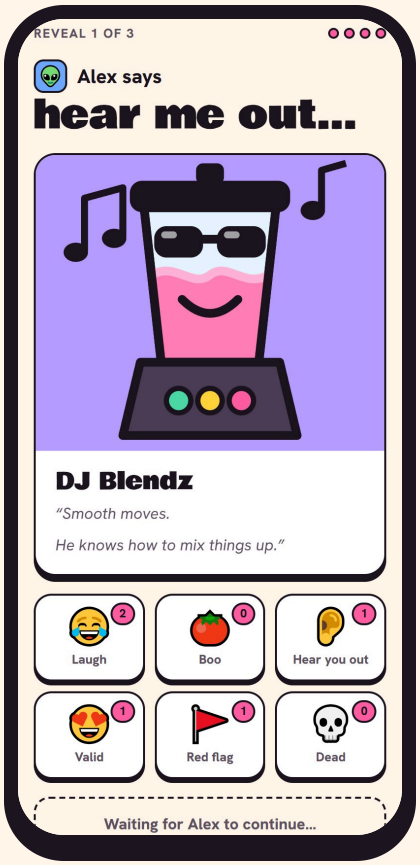

- **Laugh** — That is funny.
- **Boo** — Nope! Not a fan.
- **Hear you out** — Okay, I get it.
- **Valid** — Fair. Good pick!
- **Red flag** — Uh oh. That is a warning sign.
- **Dead** — That is SO funny.

Reactions float up with the name of who sent them.

What comes next?

When the defense is done, tap **Next reveal**. The presenter or the host can tap it. After the last pick, tap **Go to voting**.

A reveal on a phone.

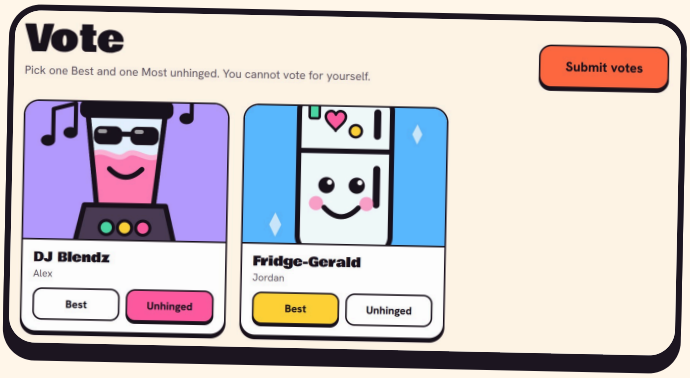

STEP 8

Vote!

Time to pick the winners. You get two votes.

1. Tap **Best** on the pick you like most.
2. Tap **Unhinged** on the wildest pick.
3. Tap **Submit votes**.

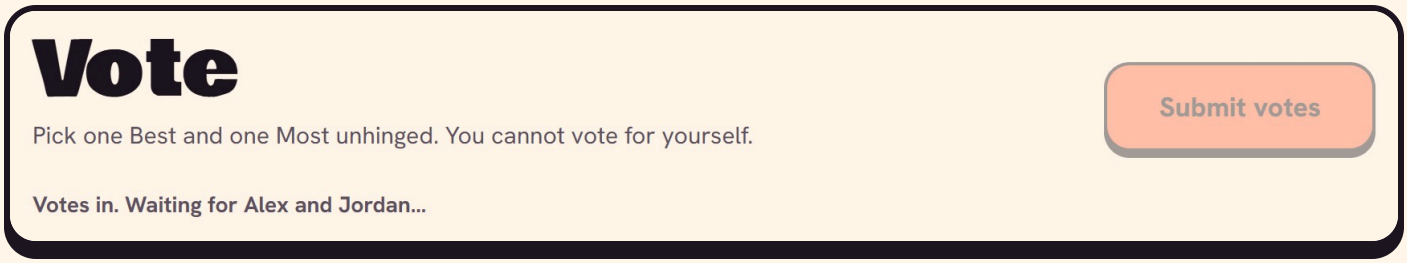

You cannot vote for your own pick, so you will not see it here. You can give both votes to the same pick.

Best is yellow. Unhinged is pink.

Tip

The game waits for everyone to vote. Players who left do not count.

Your votes are in. Now you wait for your friends.

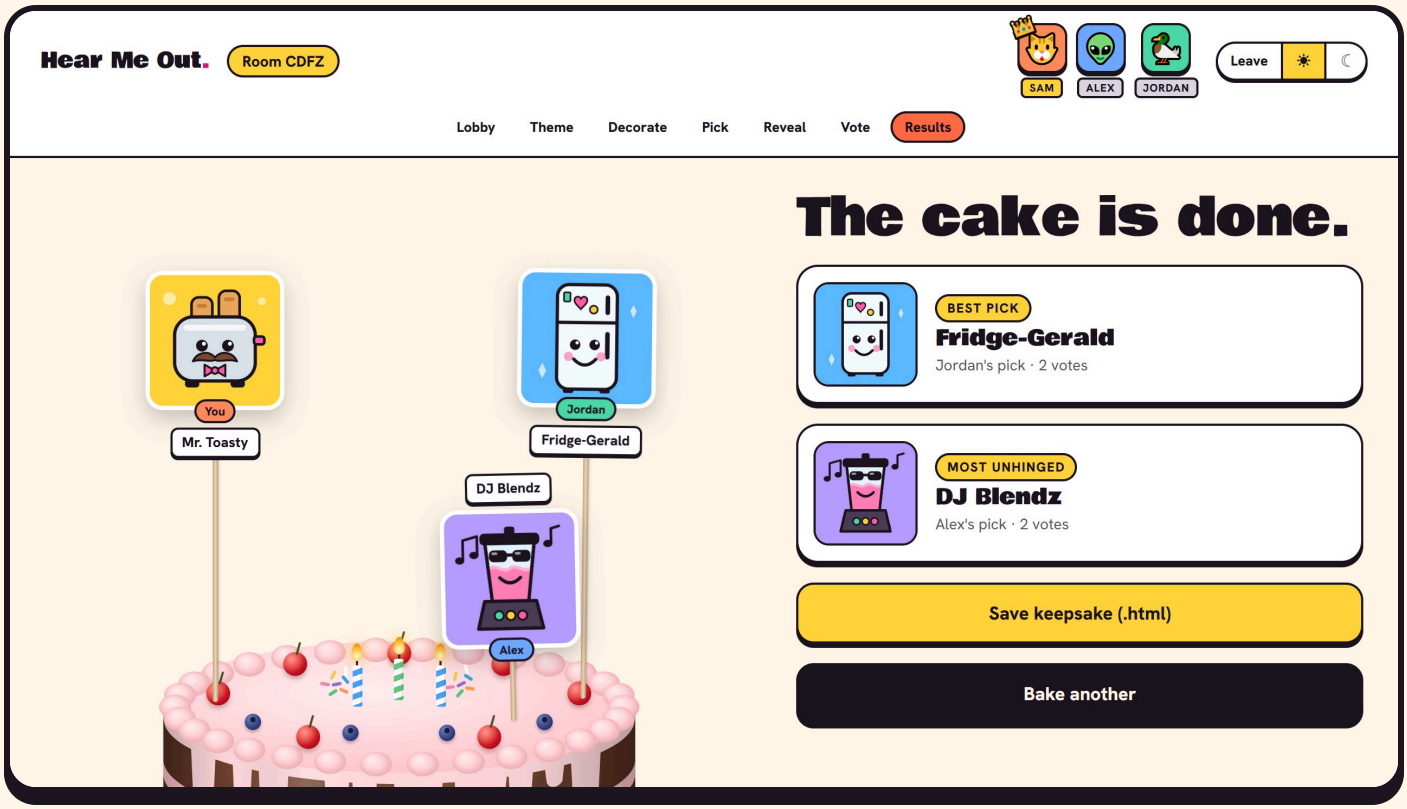

Why do we vote?

It is all for fun. The winners get bragging rights and a spot on the keepsake page!

THE RESULTS

The cake is done!

See your final cake with all the picks on top. You also see the winners.

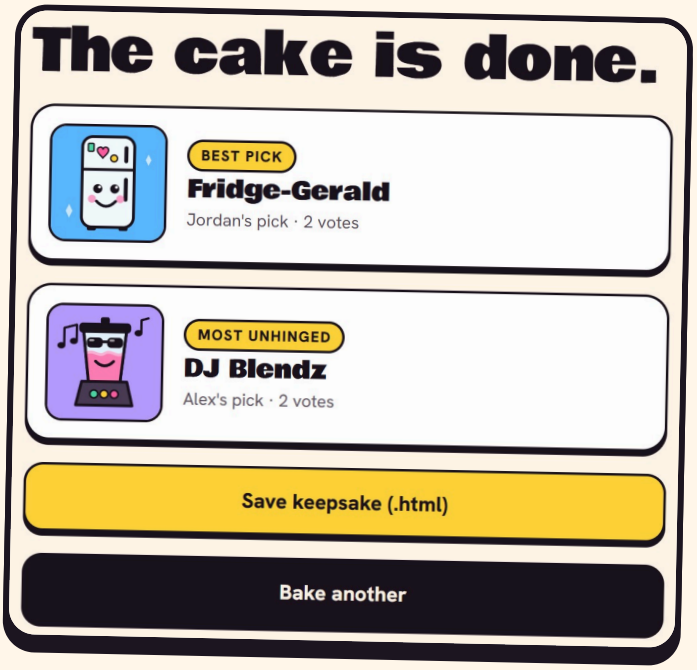

The final cake, the winners, and two buttons.

Save keepsake (.html) saves a page with your cake and every pick. You can open it in any web browser.

Bake another starts a new round with the same group.

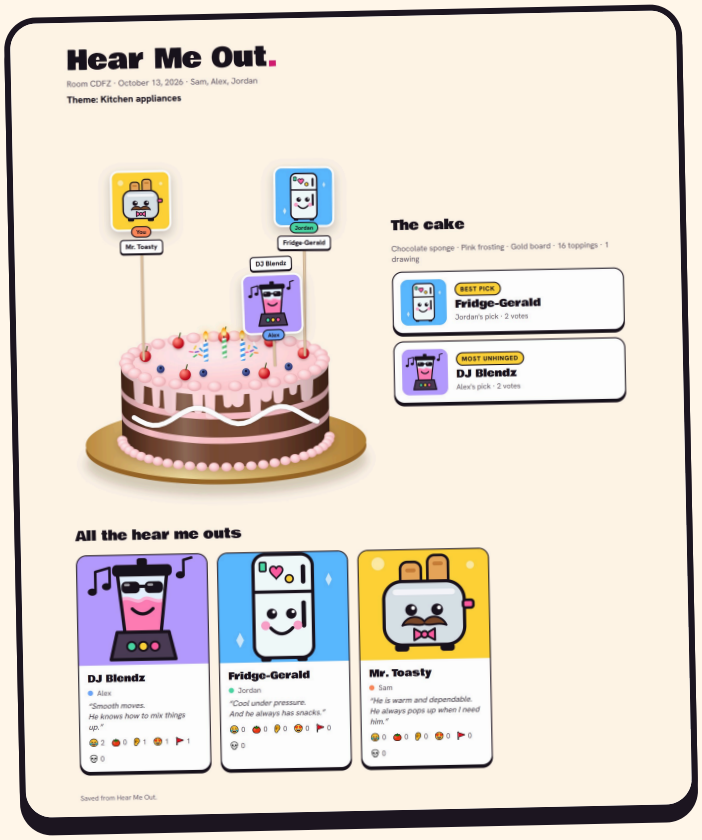

The cake label shows the theme, the date and what you used.

The winners: Best pick and Most unhinged.

GOOD TO KNOW

Your keepsake & your screen

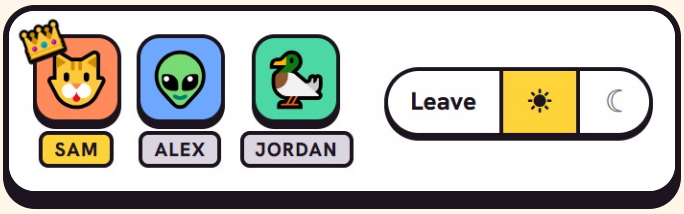

The keepsake: the cake, the winners and every pick.

The top of your screen

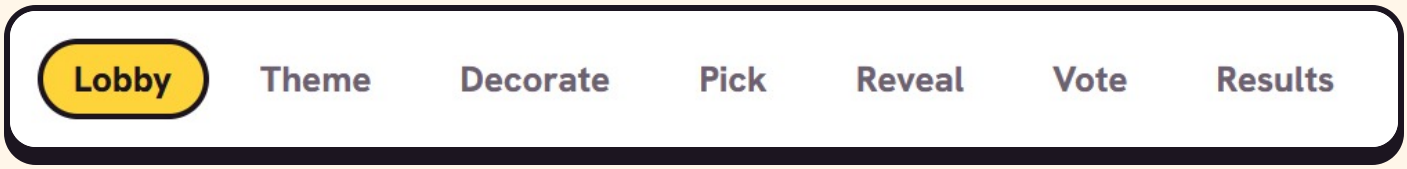

The room code is always here.

Everyone in the room. Your name is yellow. The host has a crown.

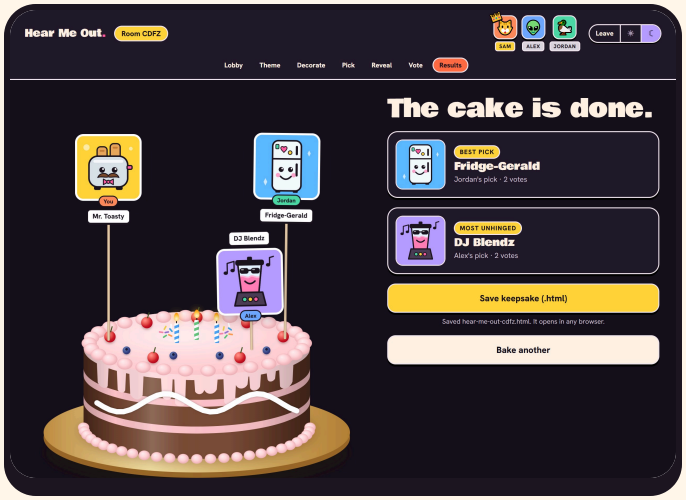

- **Leave** takes you out of the room.
- ☀ and ☾ switch between day and night.

The step bar shows where you are in the game.

TIPS & HELP

Tips and quick fixes

Night mode is easy on your eyes. Tap ☾.

- **Lost signal?** Open the link again. You go right back to your seat.
- **Someone left?** The game keeps going without them. Their icon fades.
- **One computer?** Use a different browser or a private window for each player.

"Still connecting"

Wait a few seconds. It goes through on its own.

"No room with that code"

Check the code. Rooms close after 24 hours.

"That game already started"

Wait until they tap **Bake another**. Then join.

"That room is full"

A room fits 12 players. Start a second room!

It says "Practice mode"

Refresh the page. Then try again.

Play nice! 😊

Pick characters or famous people. Do not pick people you know. Keep it fun for everyone.

CHEAT SHEET

The whole game on one page

	STEP	WHAT YOU DO
1	**Join a room**	Type a nickname. Tap **Create a room** or join with a code.
2	**Pick a character**	Tap a character. The host taps **Start the cake**.
3	**Pick a theme**	Tap **Suggest**. Then tap **Vote** on your favorite.
4	**Decorate**	Pick a cake and toppings. Tap **I finished decorating**.
5	**Pick**	Add a picture, a name and a defense. Place it. Tap **Lock it in**.
6	**Get ready**	Tap **I am ready for the reveal**. Then 3… 2… 1…
7	**Reveal**	On your turn, tap the card to show each part. React to everyone else.
8	**Vote**	Tap **Best** and **Unhinged**. Tap **Submit votes**.
★	**Results**	Save the keepsake. Tap **Bake another** to play again!
